## SUMMARY

Dynamic masters student with 2+ years of professional experience and 1 year of experience in assisting research projects and highly skilled in lesson planning, examinations preparation, and carrying out administrative support. Seeking to leverage my research knowledge and experience combining with technical skills and experience to fill your graduate assistant position.

## EXPERIENCE

### Software Developer
**GRT Global Logistics**                                                     **March 2022 – July 2023, Mumbai, India.**

· For GRT's client application, developed both the Frontend using Angular Framework and the Backend using Spring Boot.
· Created the Backend using the ORM tool (Hibernate) to interact with Relational Databases and used JPA to implement the ORM.
· Developed both the Frontend and the Backend for the Container booking page, Pre-Stuffing page, and CFS Shipping Bill page.
· Cleared patches in the Admin portal.
· Enhanced productivity through the use of software to plan, monitor issue fixes, and submit feature requests.
· Collaborated with other developers to upgrade the website and to add new features.

### Graduate Trainee
**Vinculum Group**                                                            **July 2021 – March 2022, Noida, India**

· Created an API in the Vinloyalty project.
· Developed a functionality using Angular that enables the translation of the product from English to the Chinese language.
· Assisted in the maintenance and resolution of issues in the Integration application.
· Participated in daily scrum calls.

### Software Intern – Internship
**Vinculum Group**                                                            **January 2021 – July 2021, Noida, India**

· Configured APIs in the Swagger.
· Performed manual application testing.

## EDUCATION

### Masters of Science – MS, Applied Computer Science
Southeast Missouri State University · Missouri, USA · 2025

### Bachelor of Technology – BTech, Computer Science
Lovely Professional University. · Punjab, India. · 2021

## INVOLVEMENT

### Teaching Assistant
Lovely Professional University · August 2018 – December 2018

· Entrusted with the responsibilities of assisting the Professor Shilpa Sharma in Java, in conducting lectures, creating assignments, engaging students, and grading them throughout the semester.
· Evaluated assignments, projects, and assessments, offering constructive feedback to help students enhance their problem-solving abilities and coding proficiency.

### Teaching Assistant
Lovely Professional University · January 2018 – May 2018

· Entrusted with the responsibilities of assisting the Professor Nancy Mehtha in M1(Mathemetics – 1), in conducting lectures, creating assignments, engaging students, and grading them throughout the semester.
· Assisted students in grasping complex integration and other concepts and honing their problem solving skills, providing one-on-one guidance and addressing their queries to ensure a comprehensive understanding of the subject matter.
